These training materials have been prepared
by Aspiration.

Who is Aspiration?

- ▶ Aspiration helps nonprofits and foundations use software tools more effectively and sustainably.
- ▶ We serve as **ally, coach, strategist, mentor** and **facilitator** to those trying to make more impactful use of information technology in their social change efforts.
- ▶ www.aspirationtech.org/services

Learning Goals

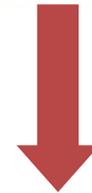

- ▶ Think through standard practices of coordinating communications at your organization
- ▶ Find ways to save time, re-use content and coordinate your communication channels
- ▶ Establish an organizational standard through the Publishing Matrix

Four Processes

Audience Assessment

Publishing Matrix

Message Calendar

Tracking & Metrics

Get Content to Audience

- ▶ Who needs to see your content?
- ▶ Where are they most likely to see it?

Ex.: Event Announcement to Audience

- ▶ Who needs to see your Event Announcement?
- ▶ Where are they most likely to see it?

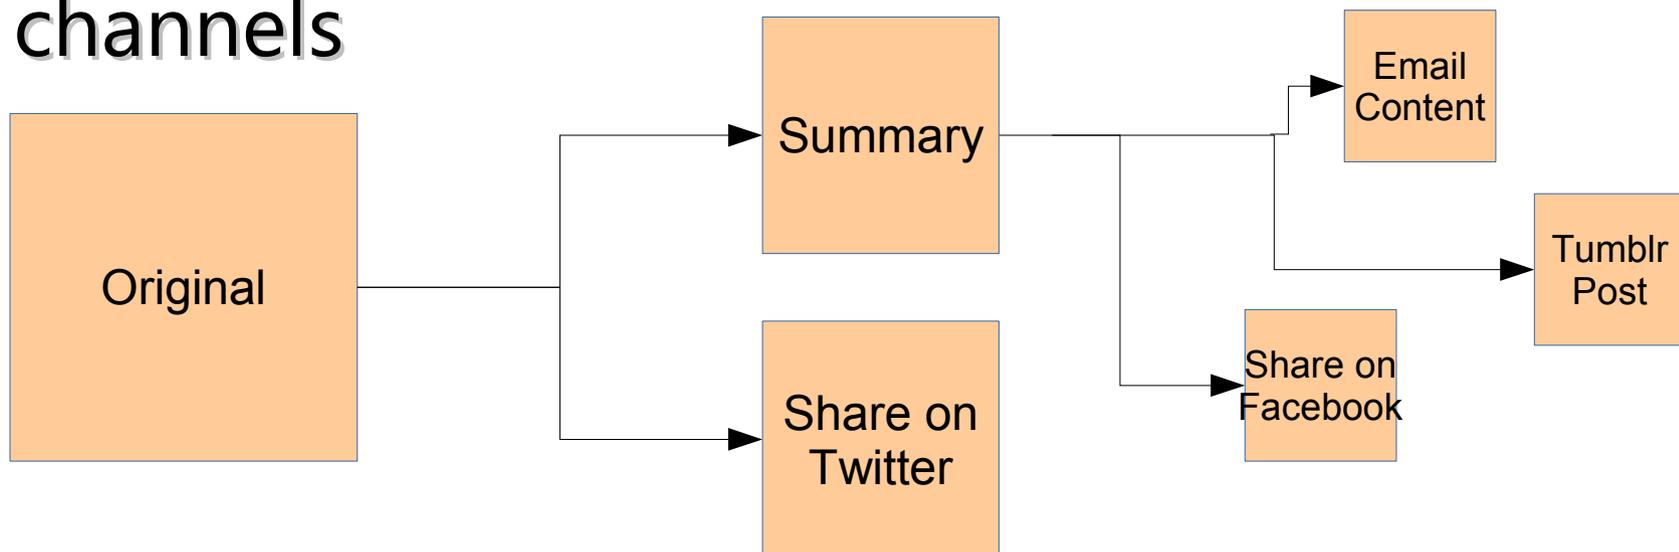

- Twitter
 - Tweets with @ & # tags

- Email Newsletters
- Tumblr

- Facebook
- Craigslist
- YouTube

Reuse-Remix-Recycle

- ▶ On average, email newsletters take 20 hours to create
- ▶ Blog posts and other “long form” content takes time to develop & publish
- ▶ Get the biggest ROI by posting content on other channels

Developing New Tech Projects, Part 1: User Testing

Written by Javier Kordi on June 9, 2014

We've been working on something that we're pretty excited about—a new part of our website that gathers all of our training resources in one place. It hasn't gone live yet, but we'd love to share our progress and get your feedback on this page mock-up as we move forward!

For years, Aspiration has been developing and delivering trainings to organizations. We've always created resources (e.g., slides, templates) to complement these trainings. While we've tried our best to make these resources available on our website for future use, they are easily scattered in the dark corners of aspirationtech.org. Our web traffic reports show this lack of accessibility and use.

We're working to fix that, in hopes that you'll find value and versatility in these resources. In addition to migrating them to an accessible place, we'll be providing the resources in various formats, such as editable versions of slides, templates and webinars. We hope that others will build on the lessons and resources and make them relevant to their own intended audiences. We're also going to place everything associated with each training in one place, in order to provide access to complementary trainings that'll look both spassy.

Imagining our audiences

This is where you wonderful people come into the process. We've learned from experience that when developing new technology projects, you need to get the potential users involved early. There's no better way to gauge usability than direct user feedback. Soaring this in mind, we advocate for developing technology in a user-oriented way which anticipates users' needs and gets their feedback early and often. Like any nonprofit project built for the community, it should be created with the community, incorporating the insight of the people who will benefit most from the project.

Naturally, we began our development process by thinking about who might benefit from a library of well-worn learning resources.

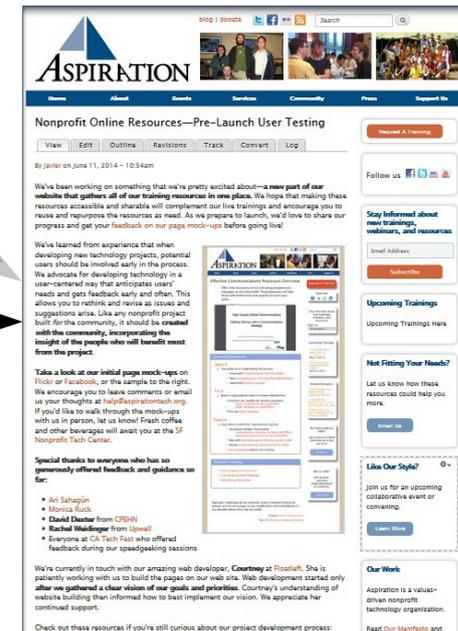

We identified a few primary audiences:

1. Self-learners—people who work or volunteer with social justice, grassroots, and community organizations.
2. Tech decision makers—people who work at or consult with organizations that are tasked with making decisions about technology around strategy, budget, and even personnel.
3. Trainers and capacity builders—people, like us, that work to support and inform nonprofit associates to achieve their missions.

Hi Everyone,

With the next CA Tech Fest on the horizon and a new home for our nonprofit learning resources emerging, our summer is heating up fast. We rounded up some opportunities for you to connect with activists, organizers, and techies from around the world who are passionate about social justice and technology.

What's Inside

- Collaboration in the Bay! CA Tech Fest Richmond
- Annual #NPDev Summit in Oakland Nov 17-19
- Nonprofit Learning Tools: Free, Open, and Adaptable
- Transparency and Accountability - Guidebook and Webinar
- Poster Shot in Online Communications

Collaboration in the Bay! CA Tech Fest Richmond

Aspiration's fifth California Nonprofit Technology Festival will be held in the city of Richmond, California on September 25-26th with our co-organizer, [Healthy Richmond](#).

Save the dates for this participatory, statewide convening of over 100 nonprofit organizations sharing experiences and knowledge around how to leverage technology to help advance their social justice efforts.

As we prepare to convene in Richmond, take a moment to catch up with a few CA Tech Fest veterans who shared their voices, and tell us what YOU hope to get out of CA Tech Fest Richmond. [Read the article](#)

A special thanks to Mikea from [Black Operations Project](#), David from [California Pan-Ethnic Health Network](#), and Ruth from [Blind Tap](#) for telling us about their experiences.

Annual #NPDev Summit in Oakland Nov 17-19th

Our annual [annual festa](#) registration is open! The [Nonprofit Software Development Summit](#) offers safe and collaborative space for everyone from nonprofit program staff to hard-core techies to share knowledge, build movement capacity and co-create the future of free and open technology for social change.

The three-day get-together will take place November 17-19th at [Preservation Park](#) in Oakland, CA.

Nonprofit Learning Tools: Free, Open, and Adaptable

Over here at Aspiration, we are working hard to create new web pages to host our learning and training materials for nonprofit staff, decision makers, and nonprofit capacity builders.

Soon we will have editable and downloadable materials as part of the nonprofit learning resources section on our web site. Until then, we would love your thoughts on the progress we've made. Tell us if we are on the right track by clicking out the [tag labels](#).

Deep gratitude to [Jill](#), [Din](#), [John](#), [Katherine](#), [Robbie](#), [David](#), [Rachel](#), and Monica for the great feedback so far.

Consistent Presence

- ▶ Not calling any group out, but we've all seen it...
 - ▶ "They tweeted everyday until this past April, are they still around?"
- ▶ Be consistent source of information and people will start to rely on finding information by checking specific places.
 - ▶ "I read every Enewsletter, that is how I know what to volunteer for."
 - ▶ Put your community members in the "drivers seat" to connecting with you.

What is a Publishing Matrix?

- ▶ How can you operationalize these processes to make sure they happen consistently?
- ▶ A Publishing Matrix!
 - ▶ A grid to help you figure out which communications channel to use for what type of message whether in a campaign or for an organizational standard as a whole

Publishing Matrix

Channels

- ▶ Tools used to communicate with different audiences
 - ▶ Online or Offline
 - eNewsletter vs. paper newsletter
 - ▶ Organizational or Non-organizational
 - Web site vs. Craigslist

Content Types

- ▶ Kinds of messages sent out to different audiences
 - ▶ Facilitate action
 - ▶ Inform
 - ▶ Organizational or non-organizational
 - Org update vs. recommending a partner resource

Questions for Channels

- ▶ Who is our audience for this channel?
 - ▶ Strangers? Fans? Funders?
- ▶ Do they want this type of content?
 - ▶ What value is it providing? Are they getting it somewhere else?
- ▶ If yes, how should we deliver it?
 - ▶ Tone? Referring link? Full content piece?
